Weizter designers will work with you and your family, guiding you through the myriad of choices with solid advise.

Working with your financial budget and your ideas, our consultants will make recommendations on the many decisions you have to make.

They will provide guidance on the relevant types of materials, finishes and textures; advise on the durability, expense and shortcomings of certain materials - and the complications they hold for you.

**E**stablished in 1994 Weizter rapidly gained an enviable position in a South African market exceptionally conscious of a high price-performance ratio. We aspire towards the highest levels of professionalism in association with leading international providers to supply a product and service that offers our customers value for money. Weizter is completely debt free and has been profitable almost since it was founded. Our focus on traditional business principles, ongoing development and professional standards, differentiates us from our competitors.

Our customers can choose from a massive product range and are not limited to the normal mundane options offered by most cabinet manufacturing concerns. Not only are there massive choices in product, there is an even bigger selection of colours, textures and styles to choose from. In brief, over 1000 different cabinets sizes, 8 material choices - some with more than 50 different colours, over 1000 different handles, internal drawer units, ladies dresser units, etc. A designers paradise. Although our massive cabinet inventory is standard for Weizter, due to the massive range of colours, textures and finishes available to the customer, all our cabinets are specially manufactured per order. Not only manufactured - but individually hand made!

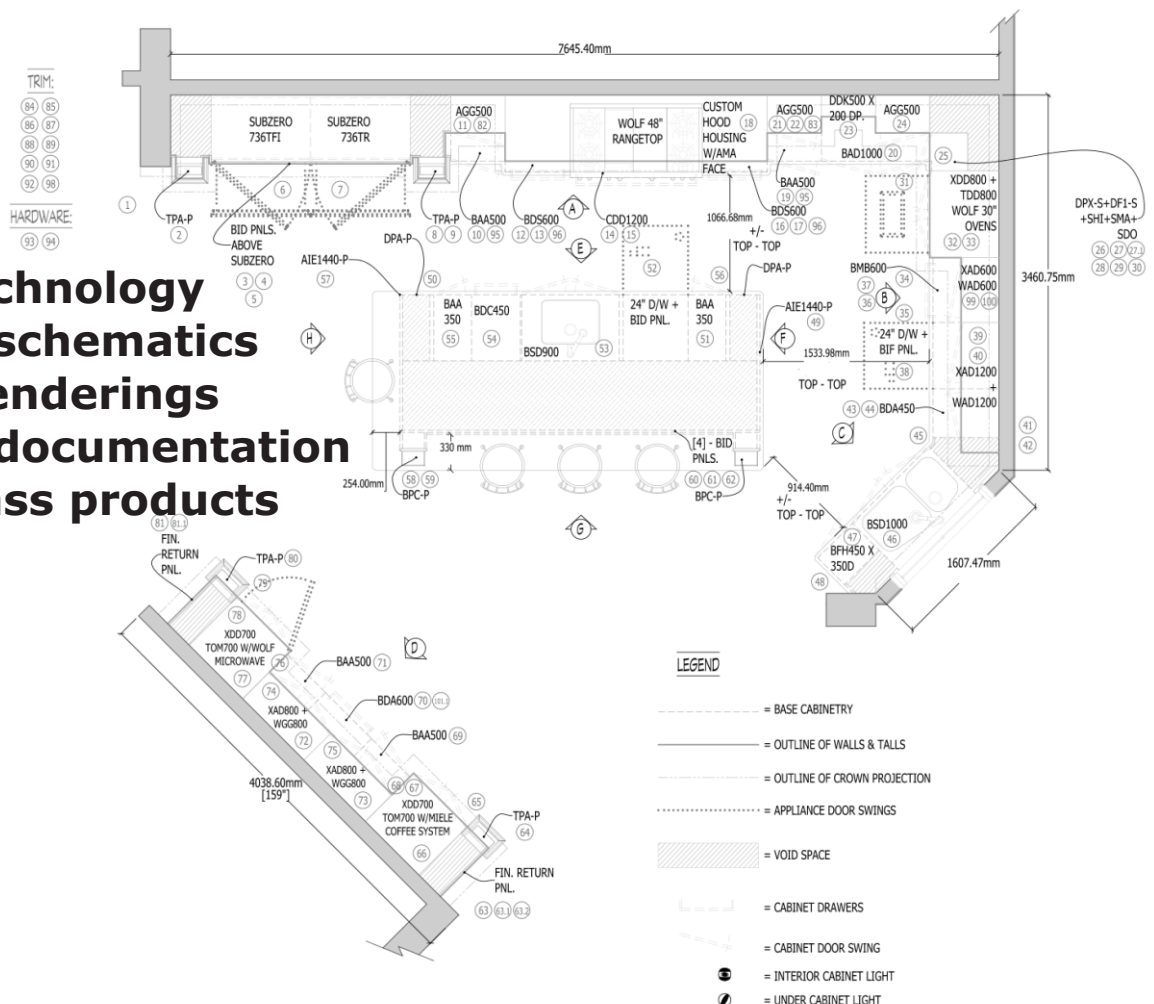

Our core business is manufacturing kitchen cabinets and bedroom cupboards for the DIY enthusiast, Home Owner Fully Fitted kitchens, Kitchen Dealers, Weizter Franchisees, Housing Projects, Building Contractors and Property Developers.

Weizter uses the latest technology in computer 3D design and cross linked costing systems. Weizter writes it's own unique and proprietary software applications, streamlining the process between orders placed by customers and manufacturing instructions handed to the factory. The system is so proficient that within minutes of the customer signing an order, the factory will have complete designs, jobcards and buying orders - ready to start!

Our designers are all fully trained and are equipped with PC's, laptops and specialized software to truly provide the customer a superior service - not found anywhere else! Weizter is the only company which extends a Life Time Warranty on its products.

**S**peed, accuracy and customer convenience is the reward for Weizter's massive investment in IT technology and software - this is largely the key factor to the success that has been attained to date. The development of Weizter's own proprietary software ensures that customers can be provided with up to date and accurate costings. Then with the click of a few buttons, multiple quotes can be generated for different finishes - **all within a few minutes.**

- **Latest technology**
- **Detailed schematics**
- **Full 3D renderings**
- **Detailed documentation**
- **World class products**

## 10 Good Reasons for buying your goods from Weizter

Weizter has all the required knowledge, experience and expertise. Weizter commenced operations in 1994 and has successfully completed thousands of contracts - from small projects to multi million Rand housing projects.

Weizter is the most technological advanced company in the industry. From specialized design and costing software to laptops and computers to e-commerce and internet customer support to factory automation and speedy delivery to our 3500 sq.m. fully equipped factory - all geared to provide you with the most efficient and professional service possible.

Weizter is completely debt free. We don't need any bank overdraft, we have no leases or hire purchase agreements - we even pay all our suppliers strictly C.O.D. We are financially healthy and this means that you are not taking any risks dealing with us.

Our designers are all equipped with the latest laptops with unique design & costing software, allowing you to obtain a quotation on the spot - without any delays!

Weizter is the only company in South Africa with an extensive range of Guarantees and Warranties. As a Weizter customer, you will enjoy the benefits of our Lifetime Warranty, 100% Money Back Guarantee, Buy Back Guarantee and a few others.

Due to Weizter's buying power, you are assured of getting value for your hard earned money.

Weizter quotations & agreements are all in writing - nothing is left to chance - no hidden costs.

Superior site supervision management results in the immediate resolution of problems.

Weizter is a fully registered South African company. We comply with all the necessary laws and regulations including Industrial Council membership, UIF, Workmans Compensation and the Government Training Fund. We are also fully insured against mishaps and accidents.

The most important asset a company can ever have are it's customers. To this end, Weizter does everything in it's power to ensure total customer satisfaction.
